

CERTIFICATIONS

ALUMINCO holds numerous international certification labels, reflecting its ongoing commitment to quality, sustainability, and exceeding the highest project standards across global markets.

ISO STANDARDS AT ALUMINCO

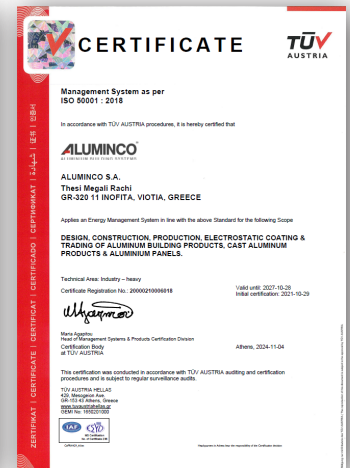

> ISO 9001:2015

> ISO 14001: 2015

> ISO 45001:2018

> ISO 50001:2018

ISO labels are international quality standards that indicate best practice in all kinds of fields of expertise. We are certified for four management systems: ISO 9001, which relates to quality management; the ISO 14001 label, which determines environmental management; ISO 45001, which represents health and safety; and ISO 50001 which strengthens the rational use of energy and the progressive use of energy from renewable sources.

EN STANDARDS AT ALUMINCO

> FPC - Factory Production Control EN 15088:2005

> FPC – Factory Production Control EN 1090-1: 2009

ALUMINCO aluminium profiles for the construction industry fully comply with the requirements of the international standard EN 15088:2005, in accordance with EU Regulation No. 305/2011, which defines harmonised conditions for declaring the performance of construction products and the application of the CE marking. Furthermore, in alignment with EN 1090-1:2009 and in conjunction with the provisions of EN 15088:2005, ALUMINCO operates a certified Factory Production Control (FPC) system that ensures consistent quality and reliability.

COATING STANDARDS AT ALUMINCO

> Qualicoat Seaside Class 2

> Qualicoat Qualideco

QUALICOAT is an internationally recognized quality label that certifies the powder coating process on aluminium profiles used in architectural applications and the Decoration of coated Aluminium used for architectural Applications products. These certifications ensure the highest standards of surface quality, durability, and performance. The QUALICOAT label applies to all ALUMINCO aluminium solutions.

SUSTAINABILITY CERTIFICATES / DECLARATIONS / AWARDS AT ALUMINCO

ALUMINCO's EPD certification ensures a fully measurable, end-to-end production process that minimizes environmental impact and carbon emissions. Backed by LCA (Life Cycle Assessment) analysis, we continuously optimize every stage, from raw materials to end of life.

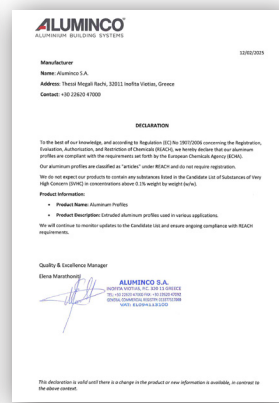

Declarations assert that our products comply with the relevant European legislation and regulatory directives.

The Gold Medal from EcoVadis is a milestone that inspires us to continue with even greater determination. The evaluation was based on international standards,

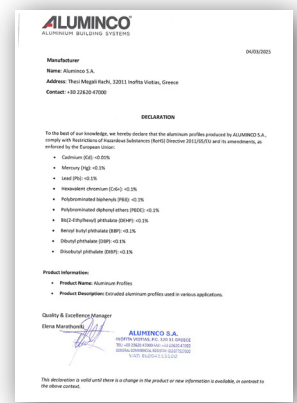

such as the 10 Principles of the UN Global Compact and the GRI indicators, confirming our strategic alignment with the Sustainable Development Goals (SDGs). ALUMINCO rightfully belongs to the top 3% of companies worldwide in the areas of Environment, Strategy, and Governance.
